## EDUCATION

**University of Michigan** Ann Arbor, Michigan **2019**  
• Pursuing B.S.E in Computer Science, 4.00 GPA  
• Relevant coursework: Programming and Data Structures, Discrete Math, Matrix Algebra

**Neuqua Valley High School** Naperville, Illinois **2015**  
• Graduated, 4.38 GPA (4.0 scale, weighted), *Magna Cum Laude*

## SKILLS

- 6 years programming experience, primarily in Java and C++/C#/C
- Working proficiency in Python, Matlab, Lua, HTML, CSS, JavaScript
- Skilled with Git, Unreal Engine 4, Unity3D, Android, Blender, Qt Framework, OpenGL
- Object-Oriented Programming and utilization of large-scale APIs (Android Framework, Unreal Engine 4)

## EXPERIENCE

**Undergraduate Researcher** **Sept. 2015 Present**  
University of Michigan, Department of Industrial and Operations Engineering  
• Independently developing a 3D visualization and simulation software to aid city officials in planning and scheduling large-scale emergency evacuations for major metropolitan cities (Sydney, New Orleans, Ann Arbor, etc.).  
• Establishing collaborative communication through student-mentor relationship.

**Team Coach, Programmer, and Builder** **Sept. 2014 Apr. 2015**  
VEX Robotics Team #2360N, Neuqua Valley High School  
• Enhanced interpersonal engineering skills while working in a team of 6 students to design, build, code, and operate an award-winning VEX robot.  
• Improved the cascading lift design for the robot by implementing a new, more effective construction.  
• Independently designed, programmed, and tested a computer simulation of the robot in order to help team stand out during judging at the VEX national competition.

**Delivery Dispatcher, Phone Worker, and Bus Boy** **Jul. 2014 Present (Off-Season)**  
Lou Malnati's Pizzeria, Naperville, Illinois  
• Independently developed an Android application in order to double the efficiency of dispatching deliveries.  
• Organized and dispatched roughly 100 delivery orders per night.

## VOLUNTEER EXPERIENCE

**M.E.Z. Mentor** **Jan. 2016 Present**  
Michigan Engineering Zone, Detroit, Michigan  
• Facilitating “cooptition,” learning, fun, and safety amongst high-schoolers on FIRST Robotics teams.

**Church Volunteer** **Jan. 2009 Sept. 2015**  
Community Christian Church, Naperville, Illinois  
• Led a small group of 4th and 5th grade boys every Sunday morning by facilitating small group activities.  
• Played electric guitar on stage during youth group services.

## PERSONAL PROJECTS

**Professional Website** [[bgr360.github.io](https://bgr360.github.io)] **Jan. 2016 Present**  
• Learned the basics of HTML5 web development and designed my own static website hosted by GitHub Pages.

**24-Card Solver** **Dec. 2015 Jan. 2016**  
• Developed an algorithm for solving 24-Cards that is 4.6 times as efficient as the “brute-force” algorithm.

**“Bengine” Game Engine** **Feb. 2015 Aug. 2015**  
• Gained knowledge of 3D computer graphics in OpenGL/C++ by coding a home-made 3D game engine.
